Ontario County Releases Draft 10-Year Solid Waste Plan for Public Review

The Ontario County Environmental Quality Committee (EQC) has released for public review the Draft 10-Year Ontario County Solid Waste Plan. Initiated in August of 2009, this planning process has included extensive county Planning Department staff research, public outreach through a series of public meetings in the summer of 2010, engineering analysis and assistance from Environmental Engineering firm Barton and Loguidice, as well as a series of public policy discussions by the EQC throughout 2011.

This draft document is available at all county libraries and online at the County website, www.co.ontario.ny.us. Ontario County residents are encouraged to review and provide comments that will improve the document and help the County move toward a future with reduced waste. The deadline for submittal of public comments is: ***December 1, 2011.***

Please submit electronic comments to prevent the use of paper by emailing to:

solidwasteplan@co.ontario.ny.us

Comments will be most helpful if submitted electronically in Word format. Please include your name, email and postal address with any comments that you submit. The EQC will be meeting throughout the fall of 2011 and will consider all comments as they are submitted. The Board is scheduled to complete the review process before the end of calendar year 2011.

Hard copy comments will also be accepted by mailing to:
